Dear Samy,
How are you?
I'd like to tell you about my neighborhood. My neighborhood isn't very big but there are many places here. There is one park where we can have fun and practice sports. I have lunch at a nice restaurant that serves delicious food. Our neighbors are helpful and friendly. Our neighborhood is clean because we look after it. We put trash in bins and we plant trees and flowers.
See you soon,

Subject	Things I miss about Egypt

How's it going? I hope you're well.
I just want to tell you about my visit to England.
I traveled to England two weeks ago. I like England, but there are lots of things I miss about Egypt – the warm, sunny weather and the food! English food is OK but Egyptian food is better! For example, for breakfast a lot of English people eat sausages, eggs (fried or boiled) and toast. I really miss my favorite Egyptian breakfast, ful medames and falafel!
Please write back soon
Lots of love

Writing Skills - Unit 1

The community garden

We work in the community garden on the roof of an apartment block. We grow vegetables and fruit for people in the local area, and sometimes we sell them, too. We think the community garden is a good idea because the plants also help to clean the air in the city, and the garden project is a good place to make new friends.

What is Mini Forest?

Mini Forest is an organization which plants small areas of trees in the middle of our cities. These special green areas help people enjoy nature and help our **wildlife** - like plants, animals and other living things. At Mini Forest, we **always** work hard to find the best urban locations for our forests, where people and wildlife need nature most. We also **usually** work with local communities to plant and look after the forests over time.

Your favorite place and what you miss there

New York

I was there in New York. Our apartment block is on the sixteenth floor, so we have a great view. New York has a lot of green spaces. I was there for a week. I went with my family. I went by plane. There are lots of different restaurants here, and the food doesn't taste like the food at home. The Alexandrian restaurants are better. I think the food is fresher and tastes more delicious. I miss Egyptian food so much!

El Fouad School

We are proud of our new, modern buildings and we're happy to show them to you. This is the place where students study science. There are four classrooms and two new laboratories. This is a large open area where students have recess. There is a playground and playing field. There are also benches to sit on under the trees and a water fountain if you feel thirsty.

Cats Are the Best Pet

Cats are my favourite animals and I think they make the best pets. They are beautiful with soft fur which is nice to touch. They are clean and calm animals which are usually friendly. They like people but they are independent, so you don't need to take them for a walk every day. It is true that cats have sharp claws and teeth, but they only use them when they are scared. People also say that when you pet a cat, it makes you happy, so they are good for your well-being too.
